### CERTIFIED ORGANIC

"We begin by cultivating U.S.-grown, USDA certified-organic hemp flowers. Then we blend our full spectrum hemp with organic MCT coconut oil and botanicals for a superior product. Third-party tested for purity & efficacy."

John W. Roulac  
Founder & Chief Hemp Officer

### GLYPHOSATE RESIDUE FREE

Our products are certified Glyphosate Residue Free by the Detox Project.

Glyphosate is a known carcinogen and the active ingredient in the destructive synthetic pesticide, RoundUp.

### APOTHECARY TRADITION

We gently alcohol-extract and distill our hemp CBD, crafting a full spectrum extract with cannabinoids and nutrients. This is how hemp CBD apothecary extract was made in the 1800s. Never any GMOs or isolates.
